

STARTUPX

**Official
Whitepaper**

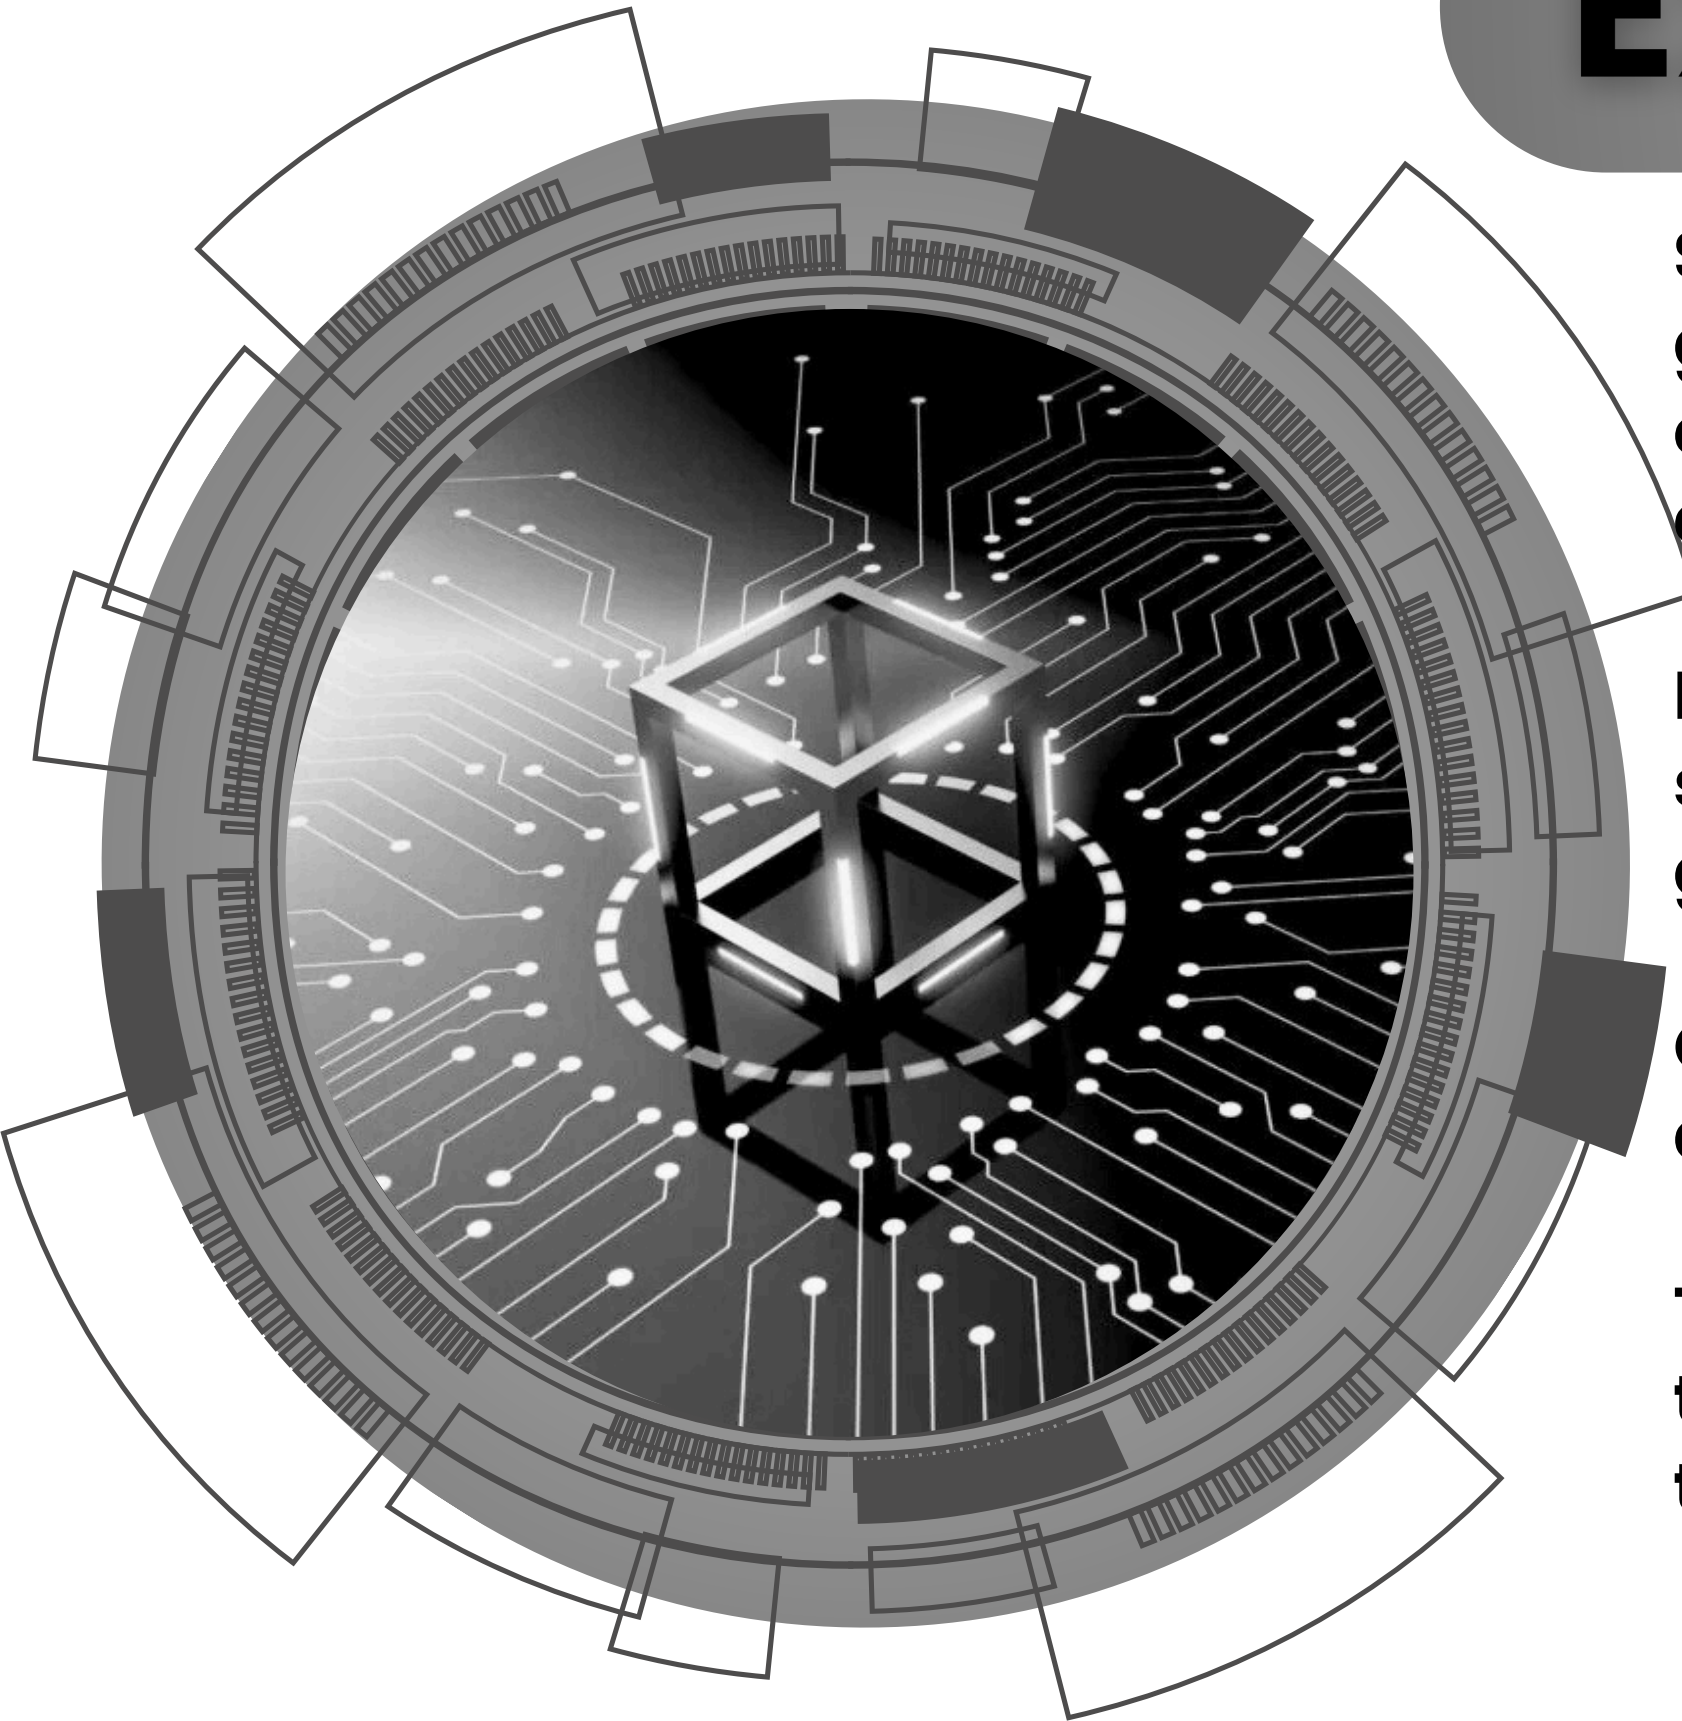

Executive Summary

StartUpX is a revolutionary platform that bridges the gap between global investors and innovative entrepreneurs through the tokenization of real-world assets.

By leveraging blockchain technology, we ensure security, transparency, and financial inclusion on a global scale.

Our goal is to democratize the global investment market and lead innovation in fundraising.

The XSTP token is the cornerstone of this transformation, enabling investors and startups to seize the opportunities of tomorrow, today.

STARTUPX

Vision and Objectives

Envisions a future where global investments are accessible, simple, and inclusive. Our mission is to connect economies worldwide by providing an efficient digital ecosystem that supports startup growth while delivering tangible returns to investors.

STARTUPX

Market Opportunity

The global tokenization market is growing exponentially, spanning industries such as:

- ✓ **Real Estate: Transforming properties into accessible digital assets.**
- ✓ **Startups: Democratizing fundraising opportunities.**
- ✓ **Financial Assets: Enhancing the liquidity of instruments like commodities and bonds.**

Through StartUpX, we enable investors to participate in previously restricted markets while providing startups with seamless access to global capital.

STARTUPX

BNB Smart Chain Network

StartUpX utilizes the BSC blockchain to meet the scalability, security, and efficiency demands of the project.

Key benefits include:

- ✔ **Fast Transactions and Low Fees: Ideal for investors and entrepreneurs.**
- ✔ **Energy Efficiency: Reduced environmental impact compared to traditional blockchains.**

Sustainable and Attractive Staking Model for XSTP

The XSTP staking program will be implemented as a unique opportunity for investors, combining economic sustainability with competitive returns. This program was designed to protect the asset's value in the market and attract investors seeking long-term growth. With a total allocation of 2.8 billion tokens over 5 years, the model balances progressive incentives and long-term retention, promoting trust and appreciation within the XSTP ecosystem.

Sustainable and Profitable

1. Token Distribution:

- Total Period: 5 years.
- Total Tokens for Staking: 2.8 billion XSTP.
- Tokens Allocated Annually: 560 million XSTP.

2. Lock-in Periods and Fixed APYs:
